

# RANGER RAPTOR

[ford-myanmar.com](http://ford-myanmar.com)

# BIRTH OF A NEW BREED

---

How do you create the ultimate performance truck? You engineer it to thrive in the world's most brutal environments. To handle the most aggressive off-road driving. You create a whole new category of tough truck.

# BUILT TO BE PUNISHED

We designed Ranger Raptor's entire frame to be ultra-durable and to handle punishing surface drop-offs most other trucks simply can't survive. 283mm of ground clearance puts ample space between you and almost any off-road obstacle. A 32.5° approach angle, 24° departure angle, and 24° break-over angle help you tackle harsh gradients. Class-leading 850mm water wading makes light work of epic river crossings.

## **More Top-End Power. More Bottom-End Torque**

The innovative 2.0L Bi-Turbo diesel engine's two turbos work sequentially to deliver huge power and torque on demand.

## **10-Speed Auto Transmission**

Ford's latest transmission technology works seamlessly with its turbocharged engine for improved power delivery and quicker gear changes.

**SYNC™3 Apple CarPlay & Android Auto**  
Ranger Raptor's voice-controlled SYNC™3 system keeps you connected, entertained, and on track. The 8-inch touchscreen features a unique start-up screen and supports functionalities like swipe and pinch-to-zoom.

**Magnesium Paddle Shifters**  
High-quality magnesium paddle shifters on the perforated leather steering wheel allow for fast shifting without taking your hands off the wheel.

**Race-Bred Suspension**  
Ranger Raptor's suspension system was calibrated to tackle tough terrain. Standard 2.5-inch FOX Racing Shocks deliver 30% more wheel travel compared to Ranger.

**Huge Bash Plate**  
Ranger Raptor's underbody shield is mammoth. Its 2.3mm thick high-strength steel is designed to absorb the impact from almost any off-road event.

**Body-Contoured Sports Seats**  
Ranger Raptor's purpose-built sports seats include unique head rests, enhanced bolsters and suede inserts for better body grip when driving off-road.

**33-Inch BF Goodrich® Tyres**  
High-tech All-Terrain Tyres come standard, boasting a precise tread pattern, longer tread life, and 20% tougher side walls compared to standard factory tyres.

**6-Mode Terrain Management System**  
Ford engineers designed and calibrated Ranger Raptor to stringent Ford Performance standards. A cutting-edge Terrain Management System offers six pre-set driving modes to conquer virtually any terrain, at the push of a button.

# 2.0L Bi-Turbo Engine with 10-Speed Transmission

Ranger Raptor does more than incorporate the latest Ford powertrain technology. It sets a new standard of performance. A cutting-edge Bi-Turbo engine has been carefully calibrated with Ford's latest 10-speed auto transmission technology to deliver more top-end power, more bottom-end torque, improved acceleration, and quicker gear changes.
