New You. New Success.

Rush

Exterior Design

guard emphasizes the SUV's tough character.

Front fog lamp (With smoke bezels)

LED Headlamp

Outside rear view mirror (Electric control, retractable and colored)

Built-in roof rail

Attach a carrier on the built-in roof rails to load large cargo items that don't fit inside. The rails give the exterior an active look.

Alloy wheel

Performance

feeling. LED rear combination lamps add a dynamic impression.

The front grille has a seamless design from the emblem to the headlamps, with four

chrome-plated bars, to enhance Rush's premium look. The longitudinal hood bulge and under

The continuous surface from side to rear and the lower trapezoidal lines enhance stable

1.5-liter Dual VVT-i twin-cam engine

Incorporates Dual VVT-i (Variable Valve Timingintelligent), which continuously optimizes intake and exhaust valve timing in response to driving conditions to deliver excellent performance in

Small turning radius

The 5.2-meter small turning radius allows Rush to maneuver on narrow parking spaces and alleyways easily.

All-terrain capability

Designed to traverse rough roads, the high approach and departure angles enable the Rush to navigate a variety of terrain.

- 1: Approach angle: 31.0°
- 2: Ground clearance: 220mm
- 3: Departure angle: 26.5°
- 4: Submersion height: 600mm

Interior Design

The ample luggage space has room for four 5-gallon water bottles (approx. 20 liters each), even when all seats are occupied. The array of easy-to-use storage

tissues, and a wide tray that holds two smartphones side by side.

Each row of seats has an accessory socket for convenient

Comfortable seating for seven occupants

A spacious interior with room for up to seven occupants.

Smart entry & push start button

Combination meters with color LCD multi-information display

Air conditioning system (Automatic) Rear air conditioner

Audio system (8 speakers)

Display audio system with a wide touch screen comes with DVD player and AM/FM/CD/USB/AUX plus Bluetooth® connectivity

Steering switches (audio & tel)

Convenient audio and telephone switches are mounted on the steering

Flexible seat configuration

The seats can be arranged to carry a variety of loads. For example, the second- and third-row seatbacks can be folded to create a large space for carrying long items and expand the luggage space. The driver's seat is spacious too, enhancing

spaces includes 13 bottle holders, a glove box large enough for a box of

Safety

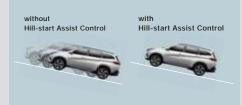

charging of smartphones and other devices.

Accessory sockets 1 ~ 3

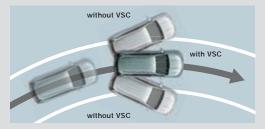

Storage space

As a global car model with a 5-star ASEAN NCAP rating, Rush provides an outstanding level of safety. Features designed for functionality and safety include 6 SRS airbags, 3-point seatbelts for all passengers, Hill-start Assist Control (HAC), and LED headlamps. These features help provide driving confidence under

Hill-start Assist Control

Hill-start Assist Control (HAC) helps to prevent the vehicle from rolling backward, for example when starting on a steep incline.

Vehicle Stability Control

When sensors detect conditions likely to cause skidding, it helps prevent front or rear wheel slip by optimally controlling engine power and braking force.

Parking assist

While parking, the back camera monitor displays the rear view, allowing the driver to reverse smoothly. In addition, ultrasonic sensors detect obstacles as the vehicle approaches them while reversing and alert the driver with a buzzer on the multi-information display.
